

SAREEN PODHUTURI

GOAL I am currently looking for an opportunity that would help me gain real world experience in the management consulting world. I am interested in being involved with actual business scenarios where I can gain important skills.

EDUCATION Systems Engineering and Design (BA) - University of Illinois Urbana-Champaign (Sophomore)
High School Graduate – International Academy of Michigan (IB School)
Georgetown University – Three-week entrepreneurial course

EXTRACURRICULAR **Illinois Business Consulting** [January 2017 – Current Day]
The largest run student-run management consulting organization in the United States. My project was focused on finding ways for a local business to better serve a college population, during which I carried out intensive market research and helped formulate a comprehensive marketing strategy.

EDAG Internship [June 30th 2015 – August 14th]

Was assigned to do a market research of various vehicle attributes and compile the data collected. The data was use to benchmark fuel efficiency/ CAFÉ standards for ongoing vehicle development programs.

Team 4384 Benzene Bots, Robotics [September 11th 2013 – June 18th 2016]

As a senior leader was responsible for organizing and directing projects of incoming members and designing certain subassemblies for the robot. Was also part of the select 4 individuals who operated the robot in competition. Under my joint leadership the team competed on an international level and achieved many distinguished. Extensive experience in both LabVIEW and Solidworks.

DECA [January 10th 2014 – October 10th 2015]

An international club dedicated to preparing future leaders in the marketing and finance sectors that I was involved in during high school. In my first year in the club I was a state finalist and was elected a senior board member for the following year.

Volunteer, Crittenton (Crittenton Hospital) [April 15th 2014 – April 2nd 2016]

I have been a Crittenton member since the summer after my sophomore year. Each week I spend three hours helping out in the outpatient area of the hospital. I have spent 60 weeks this year participating in this activity.
